The brutal captain also informed Garvey that he did not have either the time or indination to take him to the shore, and asked if he (Garvey) could swim.

Being answered in the affirmative the inhuman commander and his mate threw the sick man overboard into the icy waters of the hay and shouted to him:

## Boss Brewers May Swear Out Warrants for Labor Leaders.

DISTRICT ATTORNEY ADVISES

The Publication of the Fair List To day Probably Will Result in the Prosecution Next Monday-Mr. W. H. G. Simmons and Others Are Indicated as the Ones to Be Arrested

It is very probable that within the next few days warrants will be sworn out by members of the Eoss Brewers' Association of this city for the arrest of Master Work-man W. H. G. Simmons and other local labor leaders who have interested themselves n the recent brewers' strike, on a charge

of criminal conspiracy.

Although no formal application for be warrants has yet been made. Lawyer Leon Tobriner, representing Heurich's Brewing Company, has been in consultation with the District attorney's office and it is understood that if sufficient evidence can be produced to substantiate the charges the warrants will be issued.

Lawyers H. F. Woodard and A. H. Bellalso epresent the boss brewers, and will assist n pushing the cases.

in pushing the cases.

The allegations on which the charge is based are that the men for whom the warrants are to be issued conspired to injure the business of the complainants by placing their names on the "unfair list," as well as the names of those retailers who sell their beer, this being an intimation to members of labor organizations that they must not patronize them. THE DECISION REACHED.

It was decided last Thursday to make an effort to have the labor leaders arrested and institute criminal proceedings against and institute criminal processings against them, and the attorners were only waiting for the "fairlist" to come out. This was issued today, and as it is consid-ered sufficient evidence to make a prima-facie case, it will probably be presented

to the District attorney Monday.
"I have heard it rumored on the street that the boss brewers intended to swear out warrants charging myself and others with criminal conspiracy," said Mr. Simmons, "but I can't say how true it is. If it is true, the brewers must be in sore eed of the trade of the working people

the part of the boss brewers, will fall through."

A prominent attorney stated today that in his opinion there was far better grounds for an indictment for conspiracy against the brewers for the part they have taken in the recent trouble than there is for such a charge against anyone connected with the labor organizations for what they have done in the beer fight. LAWYER RALSTON'S OPINION.

J. H. Raiston, who has argued the only two similar cases of conspiracy in the Dis-trict during recent years, was asked for an opinion regarding the present case. "I would not like to render an opinion," said Mr. Raiston, "until I know exactly low the charge will read and what the how the charge will read and what the nature of the offense is alleged to be. The two similar cases of conspiracy were never carried into effect against the de-fendants. I do not think anything can be made out against Mr. Simmons." Citizens Desire Improvements in the Harbor.

HEARING BEFORE COMMITTEE

Representatives of the Board of Trad and Others Were Given Careful Attention-North Capitol Street Extension-Measure Affecting Pension ers-Other Local Bills.

The improvement of the harbor of Wash ngton with especial attention to the work n the neighborhood of the navy yard was the subject of a hearing before the River and Harbor Committee of the House this norning. It was a meeting of the full nittee with a good attendance

Among those present were Chairman Hooker, Messrs. Catchings, Stevenson, Les-ter, Herman. Clark, McCallough, and Buron. The citizens who appeared before the committee were Messrs. C. B. Church, Fracy & Jeffords, Thomas W. Smith, and Engineer Dunkley of Gen. Craighills of fice. They represented the Board of Trade miltee on barbor improvement, and were given careful attention throughout They were before the committee nearly at our and many questions were asked The committee, however, has not discussed his proposal.

THE OBJECTS DESIRED. Mr. Church left with Chairman Hooker a paper showing what is desired for the op-rations under consideration.

It begins with a review of harbor improve-uents here beginning in 1882, showing the purpose to give two good navigable channels, one to Georgetown, the other occurrat Washington. The Georgetown channel is to be 500 feet wide and 20 feet feep from Easby's Point to Long Bridge. The present cut is 400 feet wide, 20 feet deep.

deep.
The proposed width below Long Bridge s 800 to 1.600 feet, and 20 deep; the cut n that part at present is precisely the same as above the bridge, 400 feet wide by 20

leep.
The Washington channel is to be 800 feet The washington countries to between the sea wall and the harbor line. The cut now is 400 feet by 20 deep, with a second cut 200 feet by 16 deep. The only cut required to complete this part is 4 eet deep by 200 wide from Long Bridge to the Arsenal.

The doubt as to the ownership of lands re-claimed, which hampered operations as long as the Kidwell Flats suit was pending, it is stated, has been removed by the decision last summer. It is now possible to calcu-late, with reasonable certainty, that whatever lands are made of the District, and I consider this a confession that their boast of doing as much business as they ever did as false.

"However, it will be well not to try to cross the bridge before we come to it. I rather think that everything will be all right, and that this, like other bluffs on the part of the bass bewers, will fall of 1889.

In this way 622 acres of ground will be reclaimed, and a tidal reservation of 111 acres will be formed. The land, valued at 15 cents per foot, will bring over four million dollars; at 20 cents, which is not oo high, its value is \$5,410.152. The st of the work so far has been \$2,100,000.

# THE LAST DAYS

--OF THE--

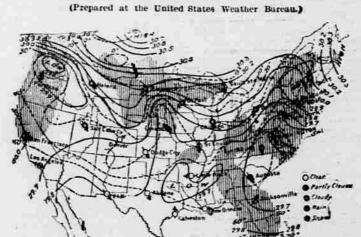

# **EXTENSION SALE!**

Monday night will end the Discount Sale. This week has been Silver Week, Gold Week, and Diamond Week all combined, and a week of wonderful trading it has been! The uniform success of my sales I attribute to the fact that I live up to every word I advertise, and that I sell closer than my competitors. I shall not rest until I have made this the most popular and best known Jewelry Store in Washington, and I believe I am on the right track. Again I respectfully remind the public-my patrons-that Monday will be the last day of the discount of 15 per cent.
